AGENDA ITEM/TOPIC | SUMMARY OF DISCUSSION | OUTCOME/ACTION/RESPONSIBLE
---|---|---
I. Welcome and Introductions | Andrea Duarte and Tim Marshall welcomed the group and initiated introductions. Reminder to sign in and out and complete an evaluation in order to receive CECs. |  |
II. Presentation | Gaggle provides safety solutions to schools K-12 and reviews the digital environments provided by schools to their students, such as Google, Canvas, Microsoft. Everything goes through an algorithm—documents, photos, videos, slideshows, calendar invites, etc. Potentially harmful content and images in school-issued email and online file storage accounts are flagged for expert review. Gaggle intercepts harmful content and alerts administrators based on severity. Rapid response is essential in imminent situations and school-appointed contacts are notified immediately, even after standard business hours. Currently, Gaggle works with 1400 schools (approximately five million students). The most common incident types are violence; suicide and self-harm; profanity and vulgar language; nudity and sexual content; drugs and alcohol; and harassment. In the 2017-2018 school year, 542 lives were saved from suicide. |  |
III. State Plan 2025 Discussion | The “State Plan 2025 Discussion” agenda was as follows:  
- Why do we have state plans?  
- What is the history of our state plan?  
- What has our state plan been used for? |  |
